Mayor (City of Eutaw)

District Schools

Greene County Schools is scheduled to launch a nationally acclaimed program called "The Parent Project" this spring. This will be the first time that this Parental Involvement Program is being presented in this area. The program provides parents with a 10-week curriculum designed to share effective strategies for improving parent/student relationships. The Parent Project is a comprehensive, award winning model for school-based programs serving high-risk families. The district understands that transforming parent/student relationships can be difficult, therefore we hope to provide our parents with access to a network of support through our partnership with DHR, Law Enforcement, the Juvenile Probation Officer and Juvenile Court, City Mayors, the Greene County Commissioners and more.
